Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

Use the below template to list all the user stories for the product.

| User Type | Functional Requirement (Epic) | User Story Number | User Story / Task | Acceptance criteria | Priority | Release |
|---------------------------------------|-------------------------------|-------------------|-----------------------------------------------------------------------------------------------------|-------------------------------------------|----------|----------|
| User (Subject that uploads the image) | Uploads image | USN-1 | As a user, I canupload the images to the website in order to obtain outcome to check for Parkinsons | I can upload any files. | High | Sprint-1 |
| | | USN-1 | As a user I can view results and accuracy of the prediction as well. | I can get instant results one click away. | High | Sprint-1 |
